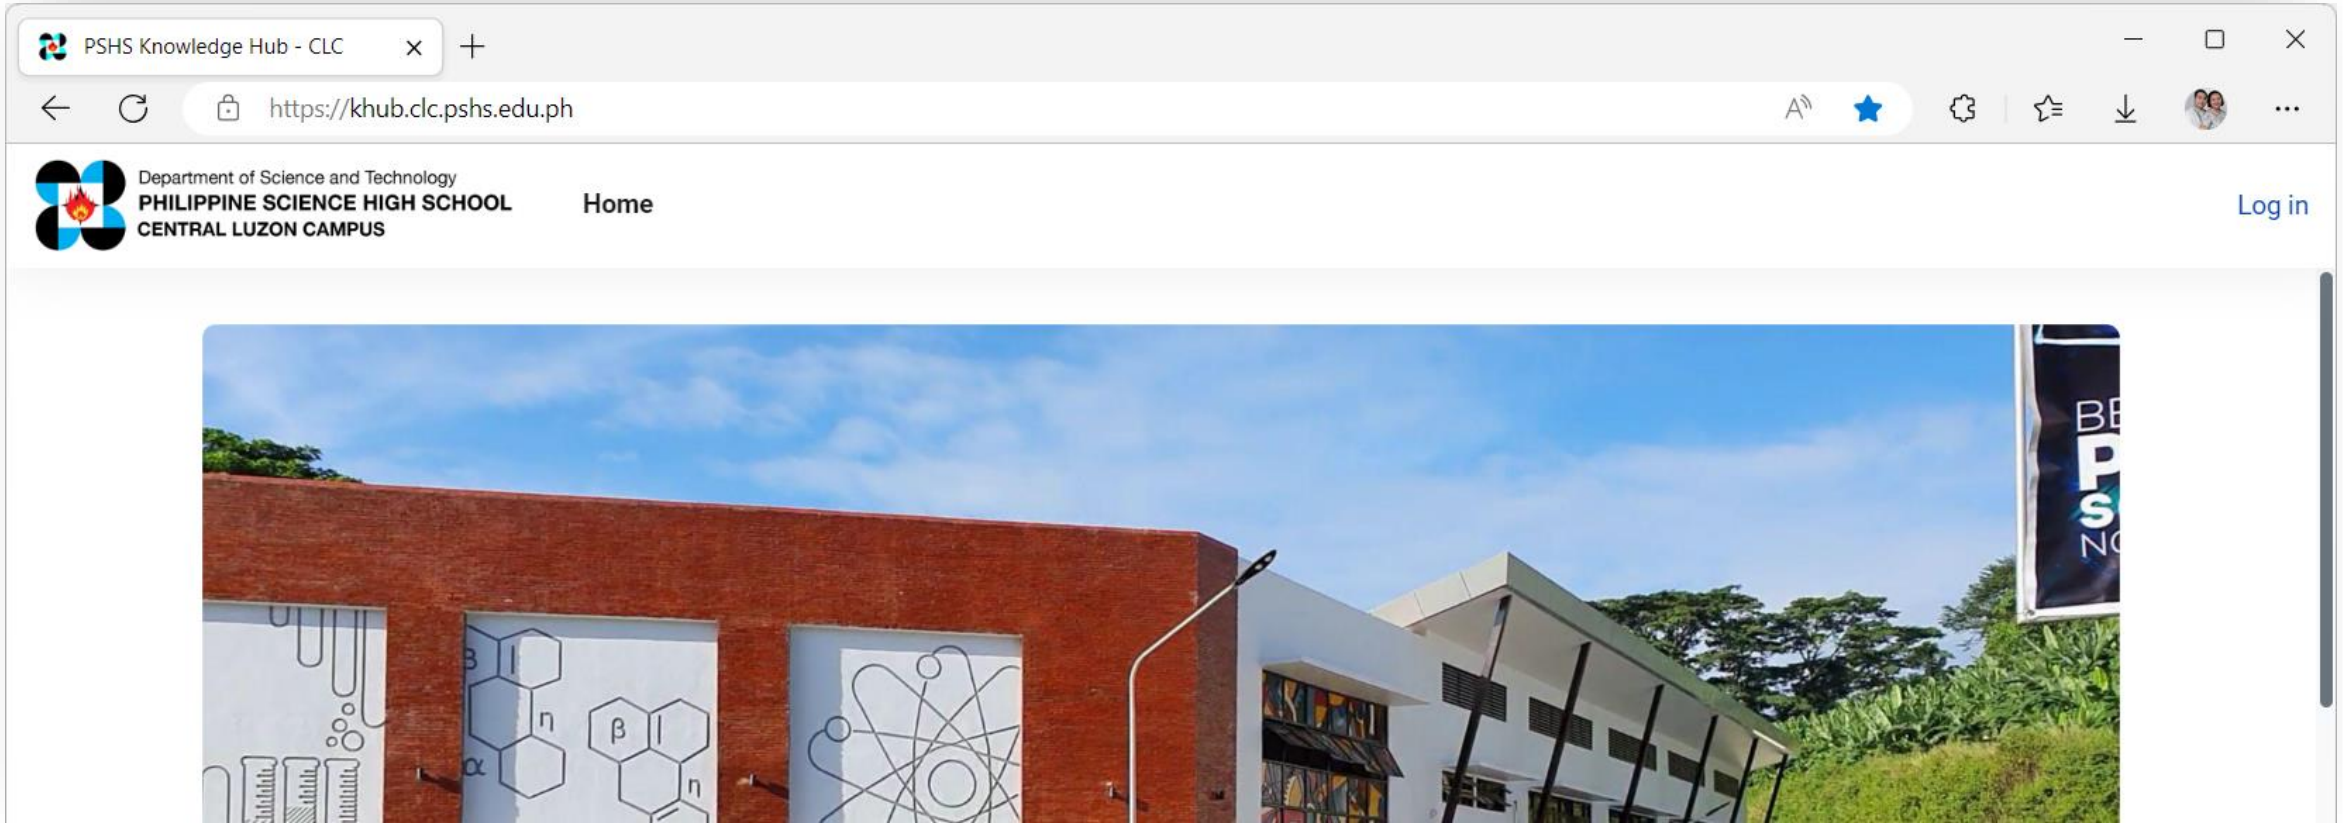
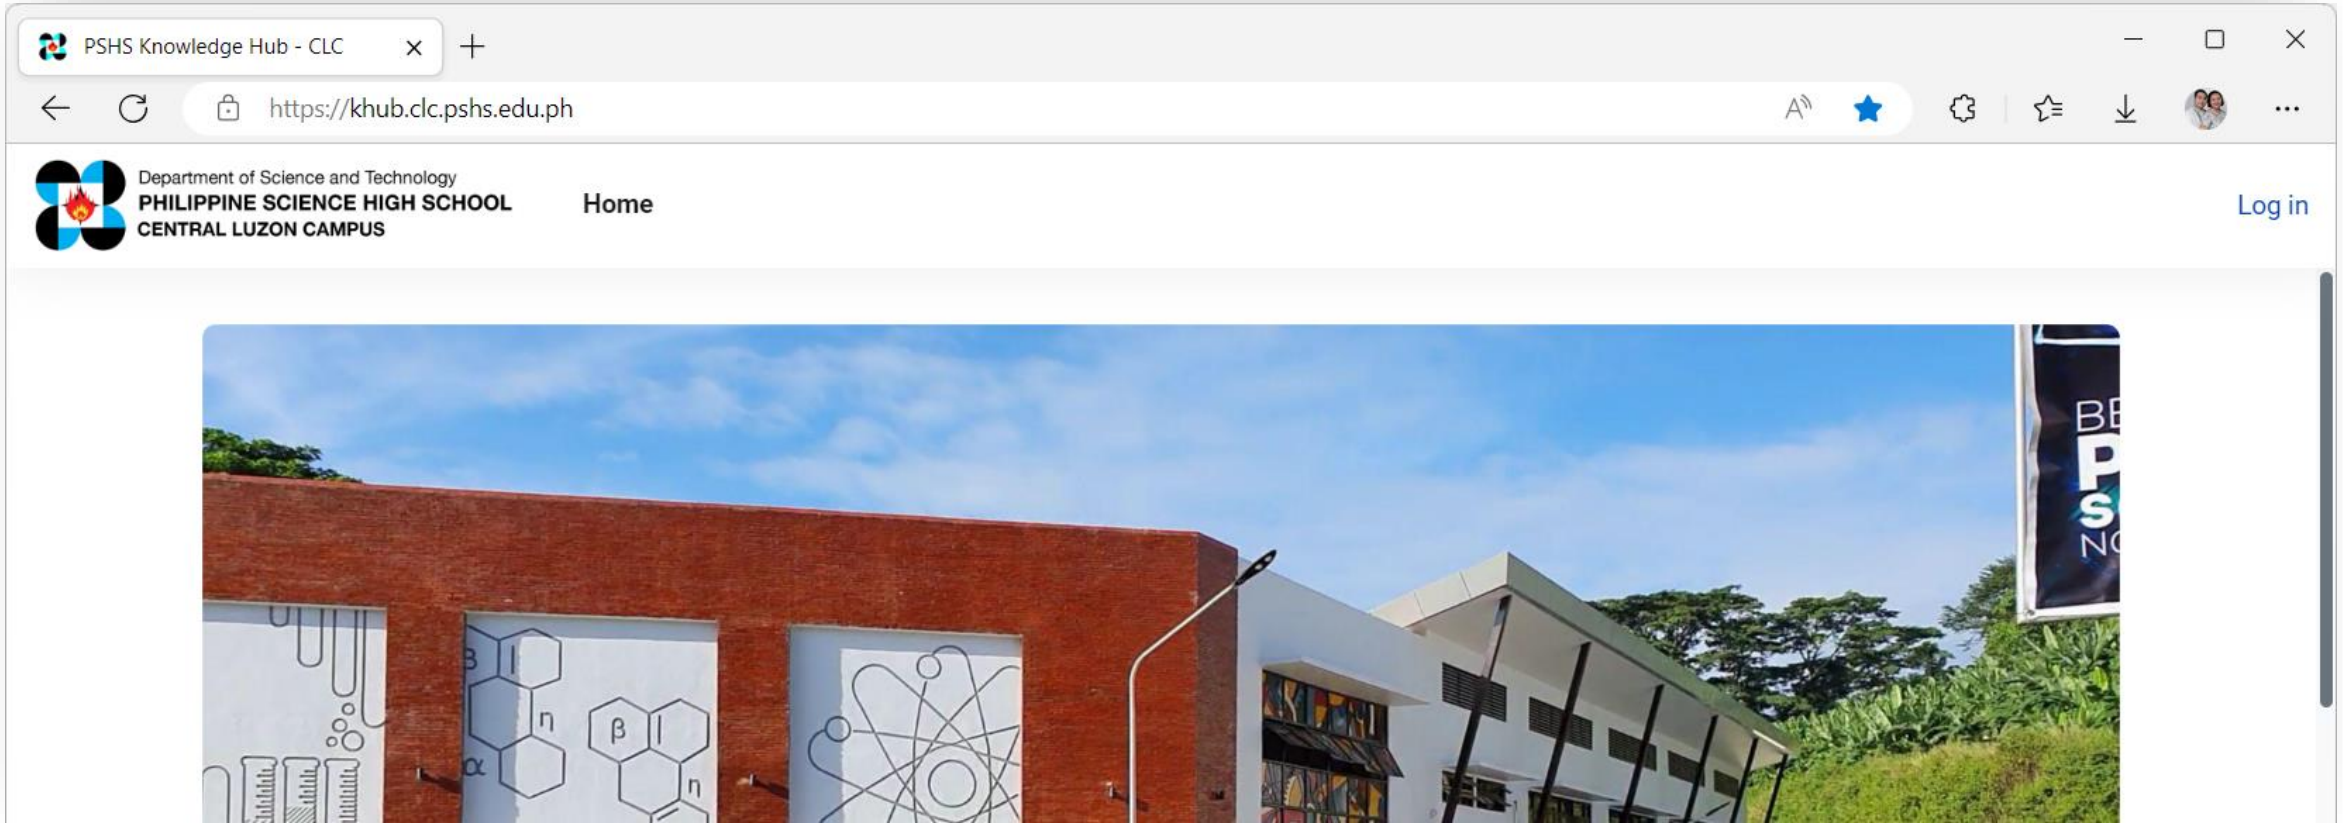
What is K-Hub?

The K-Hub (Knowledge Hub) is the Learning Management System (LMS) of the Philippine Science High School System.



What is K-Hub?

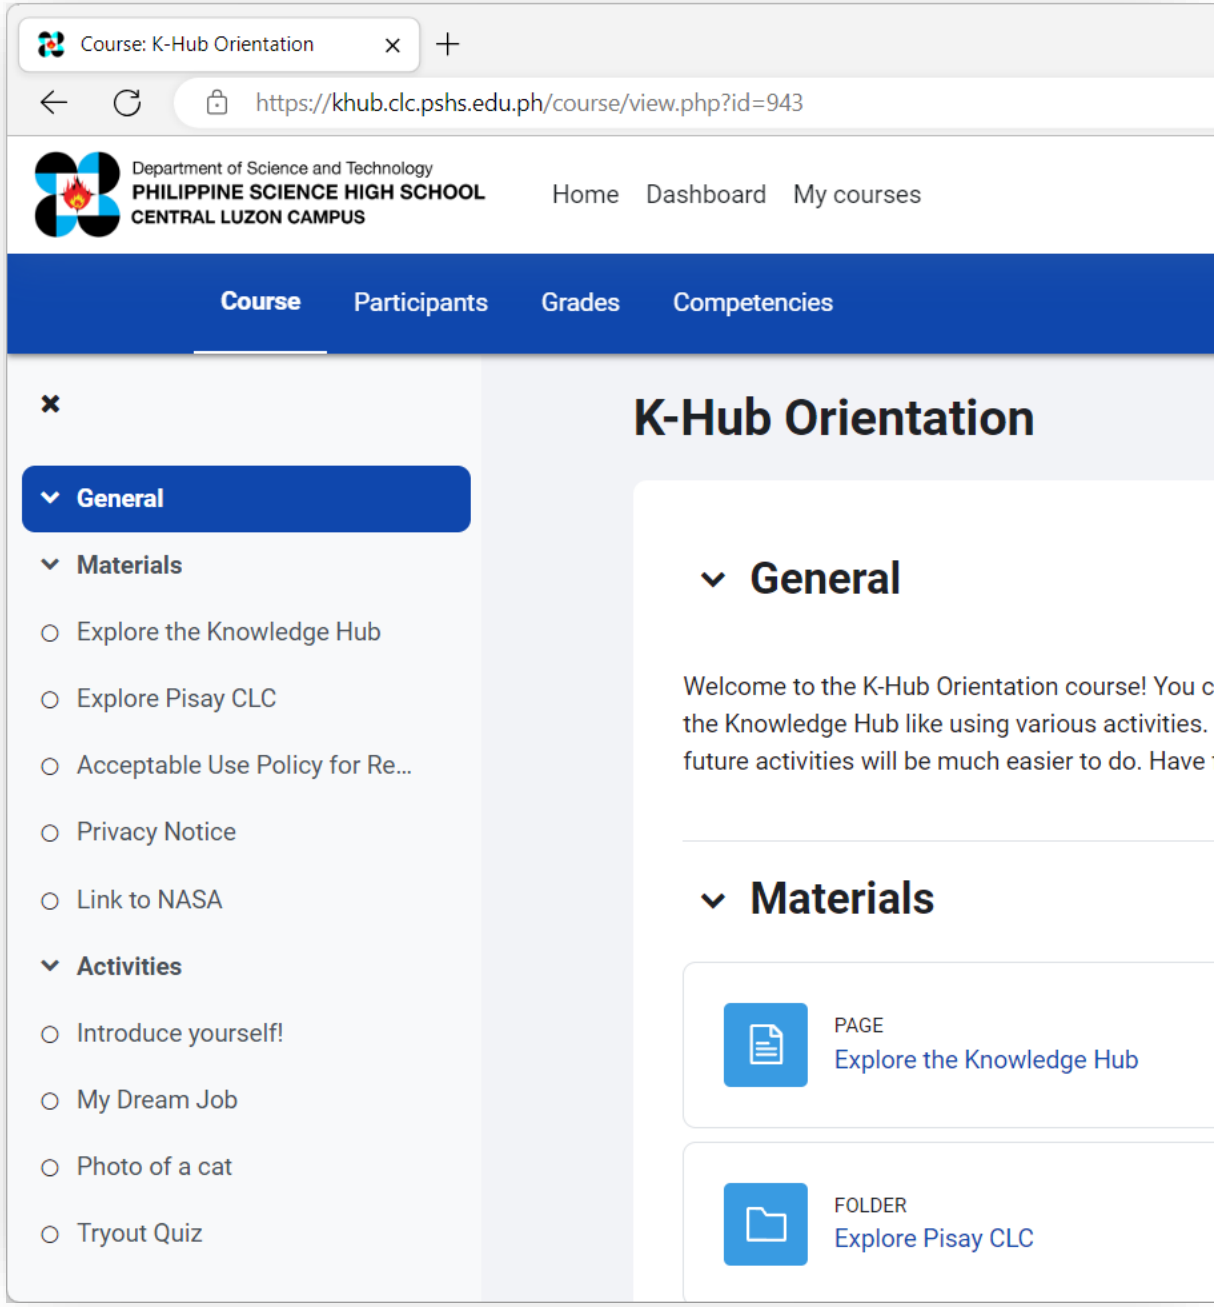
It is used across all campuses of the PSHS and enables distance learning modalities. It is based on Moodle.



What is K-Hub?

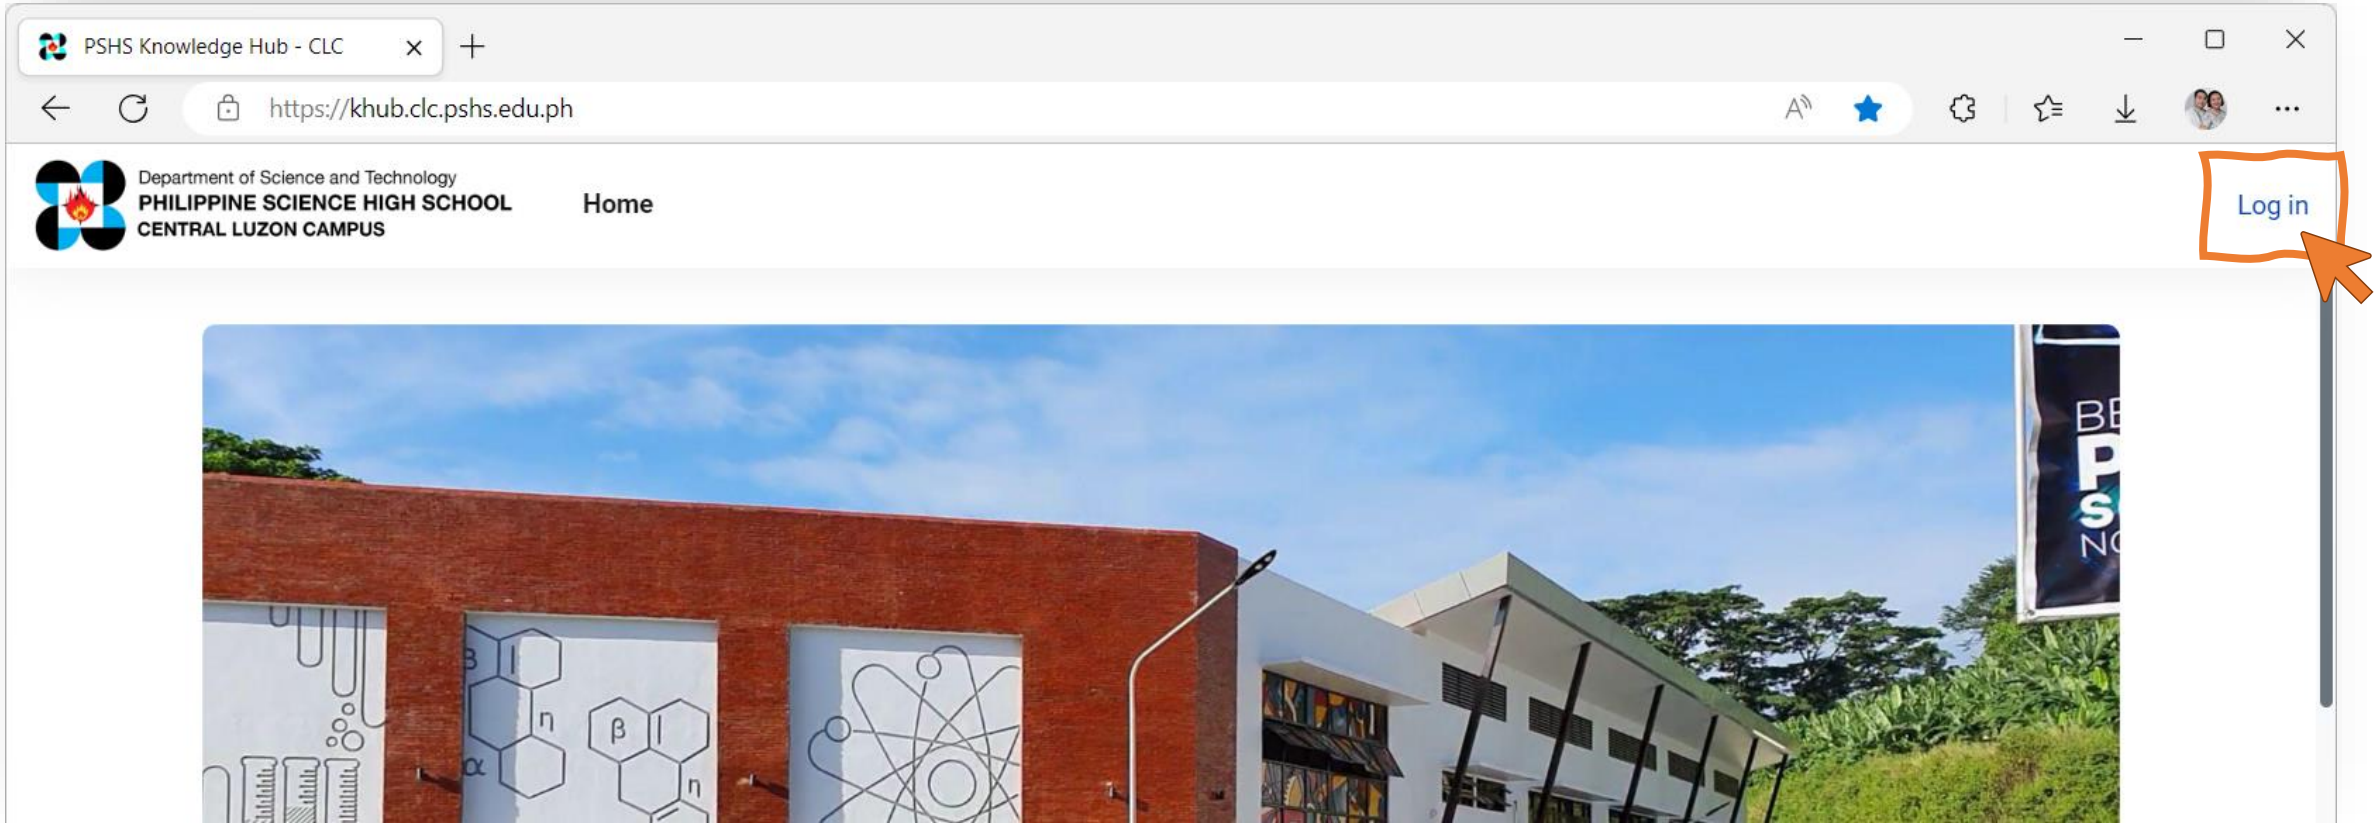
Students will find their learning materials and guides for their subjects.

Activities like quizzes and forums can be conducted for assessment.



Accessing K-Hub

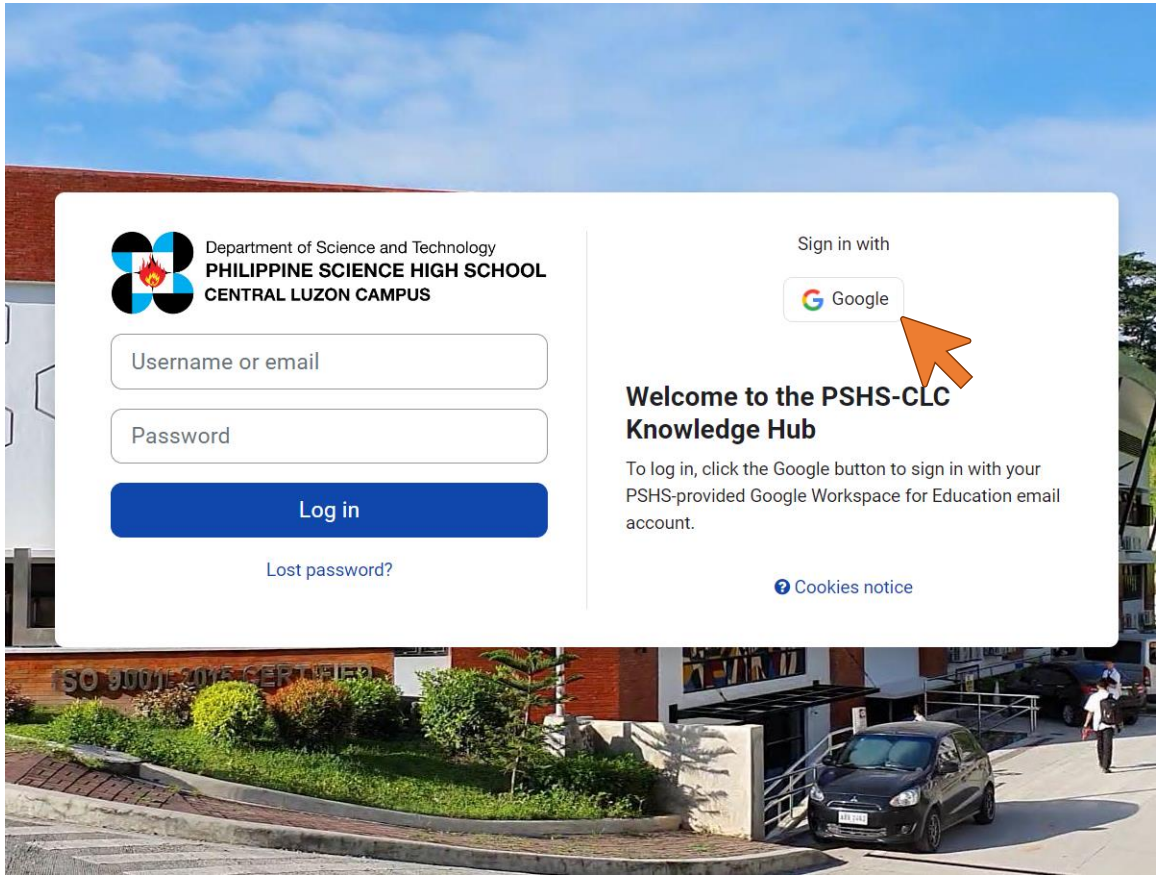
Visit https://**khub.clc.pshs.edu.ph** and click the Log in link

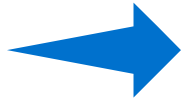


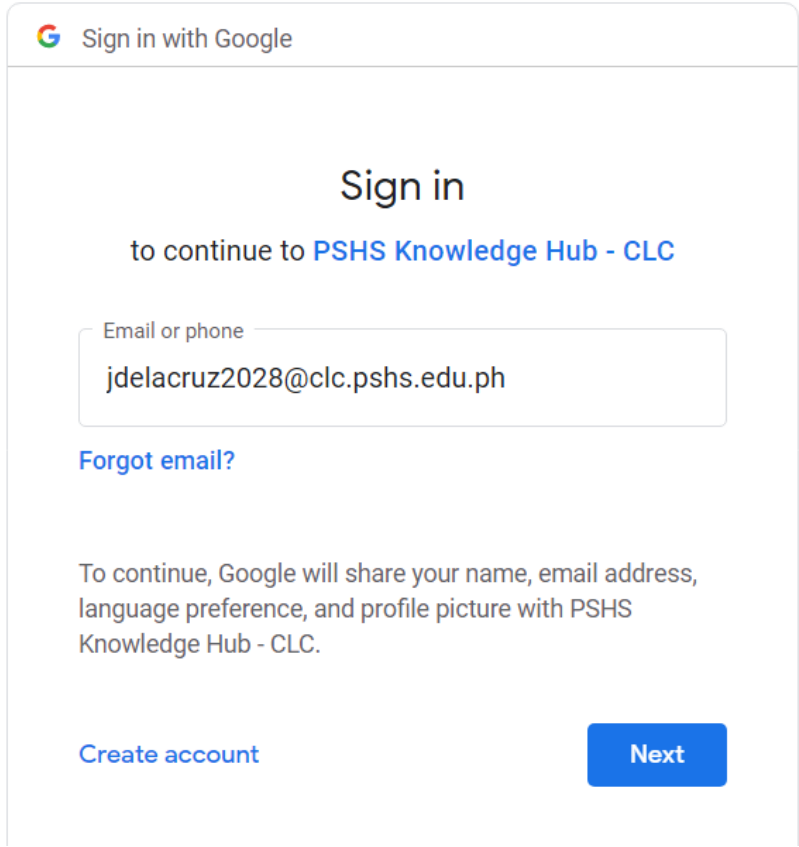
Logging in

Click the **Google** button to log in using your PSHS-provided email address.

Note 1: Your PSHS-provided email address is a Google Workspace for Education account, hence the Google sign-in page.
Note 2: Entering your username and password in the K-Hub text fields will not work. Only Google sign-in is recognized.
Note 3: Personal Gmail addresses will not work in the K-Hub.

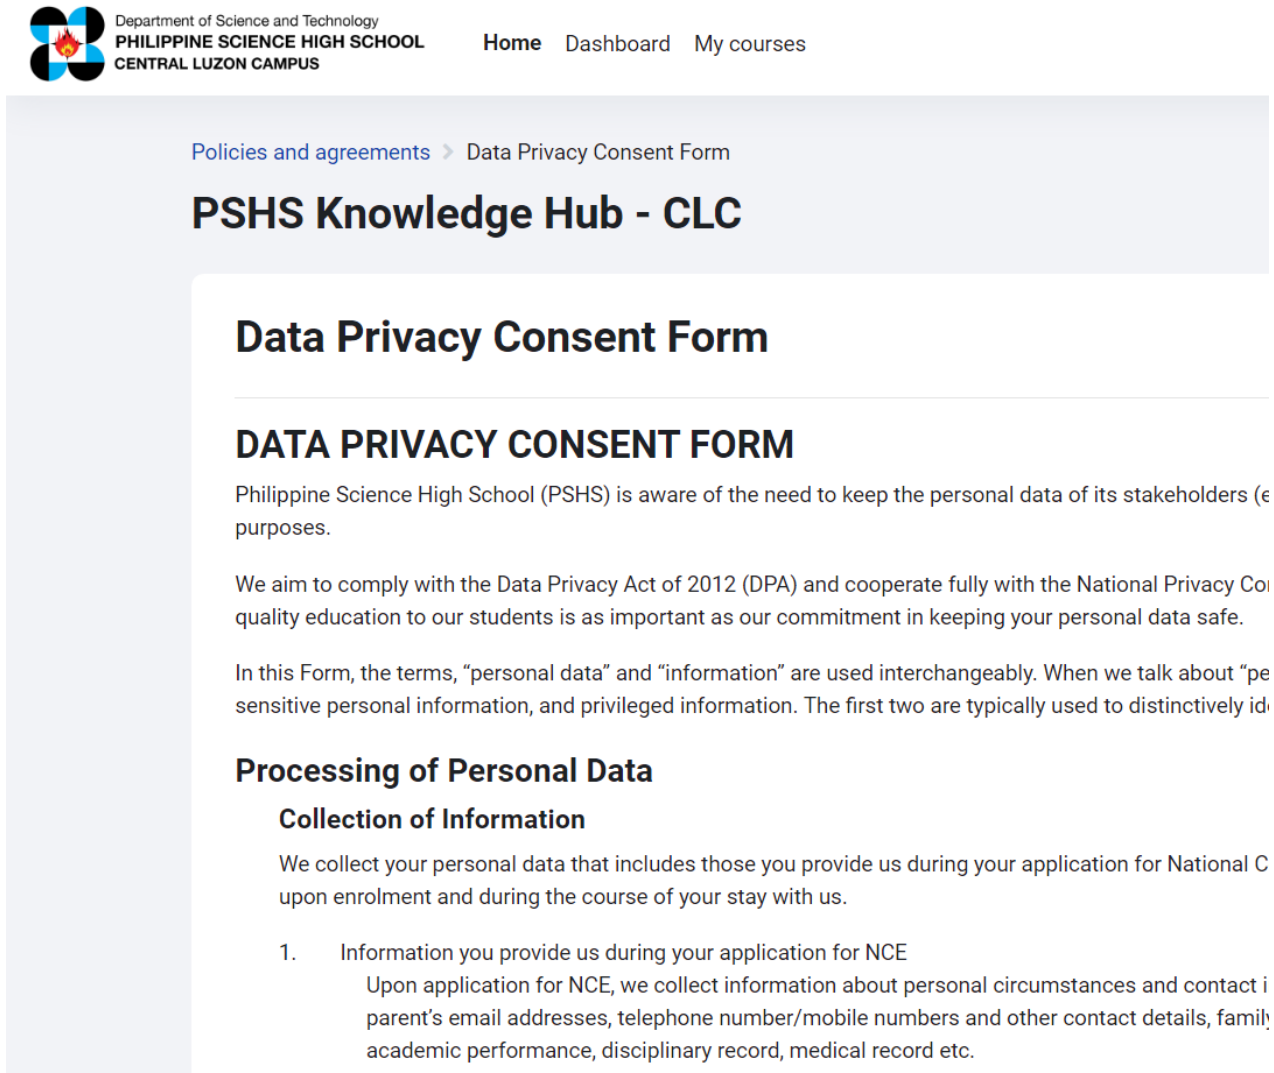


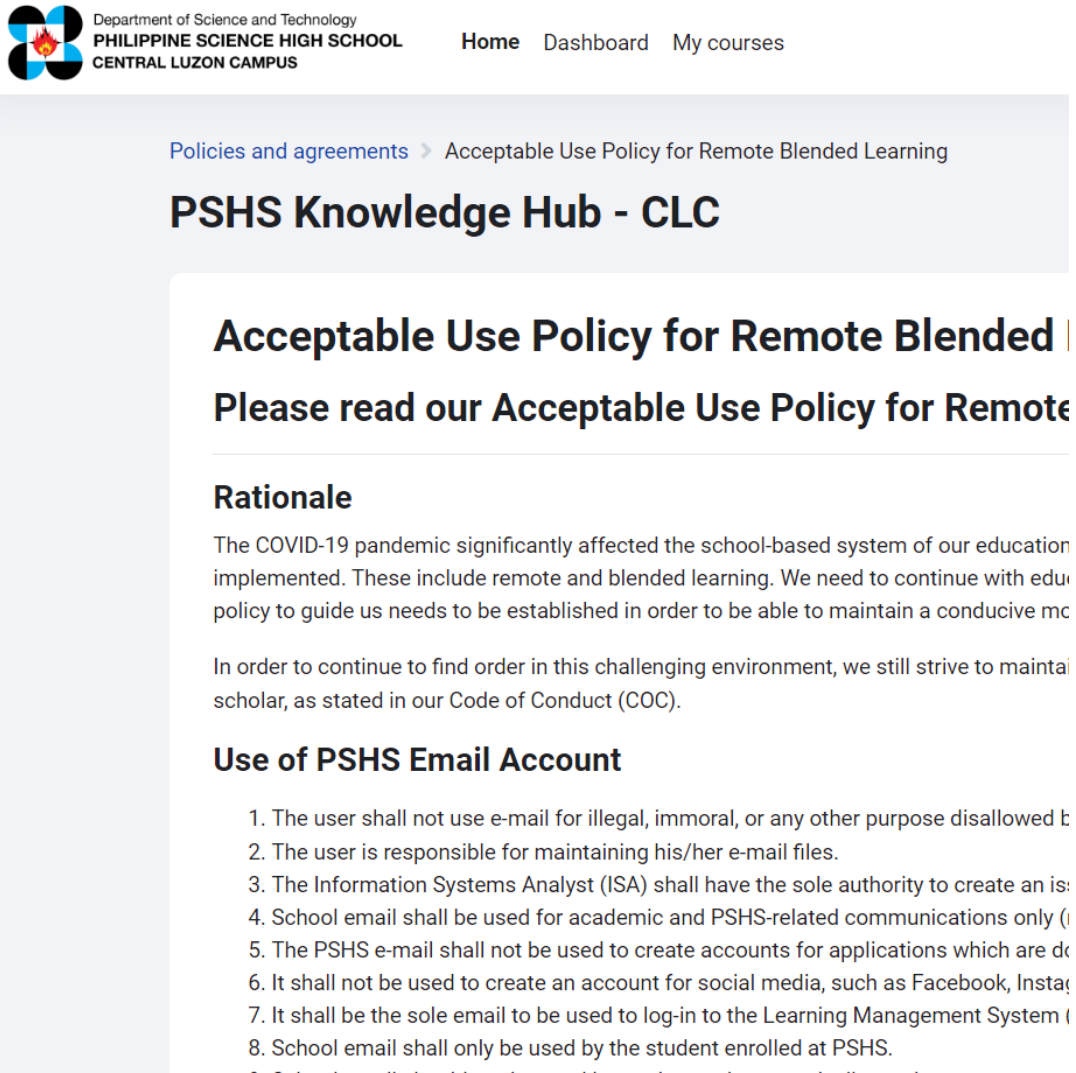




On the 1st sign in

Agree to the Data Privacy Policy and Acceptable Use Policy on your first log-in.
Scroll down to find the **"I agree"** button. These policies can be reviewed later.

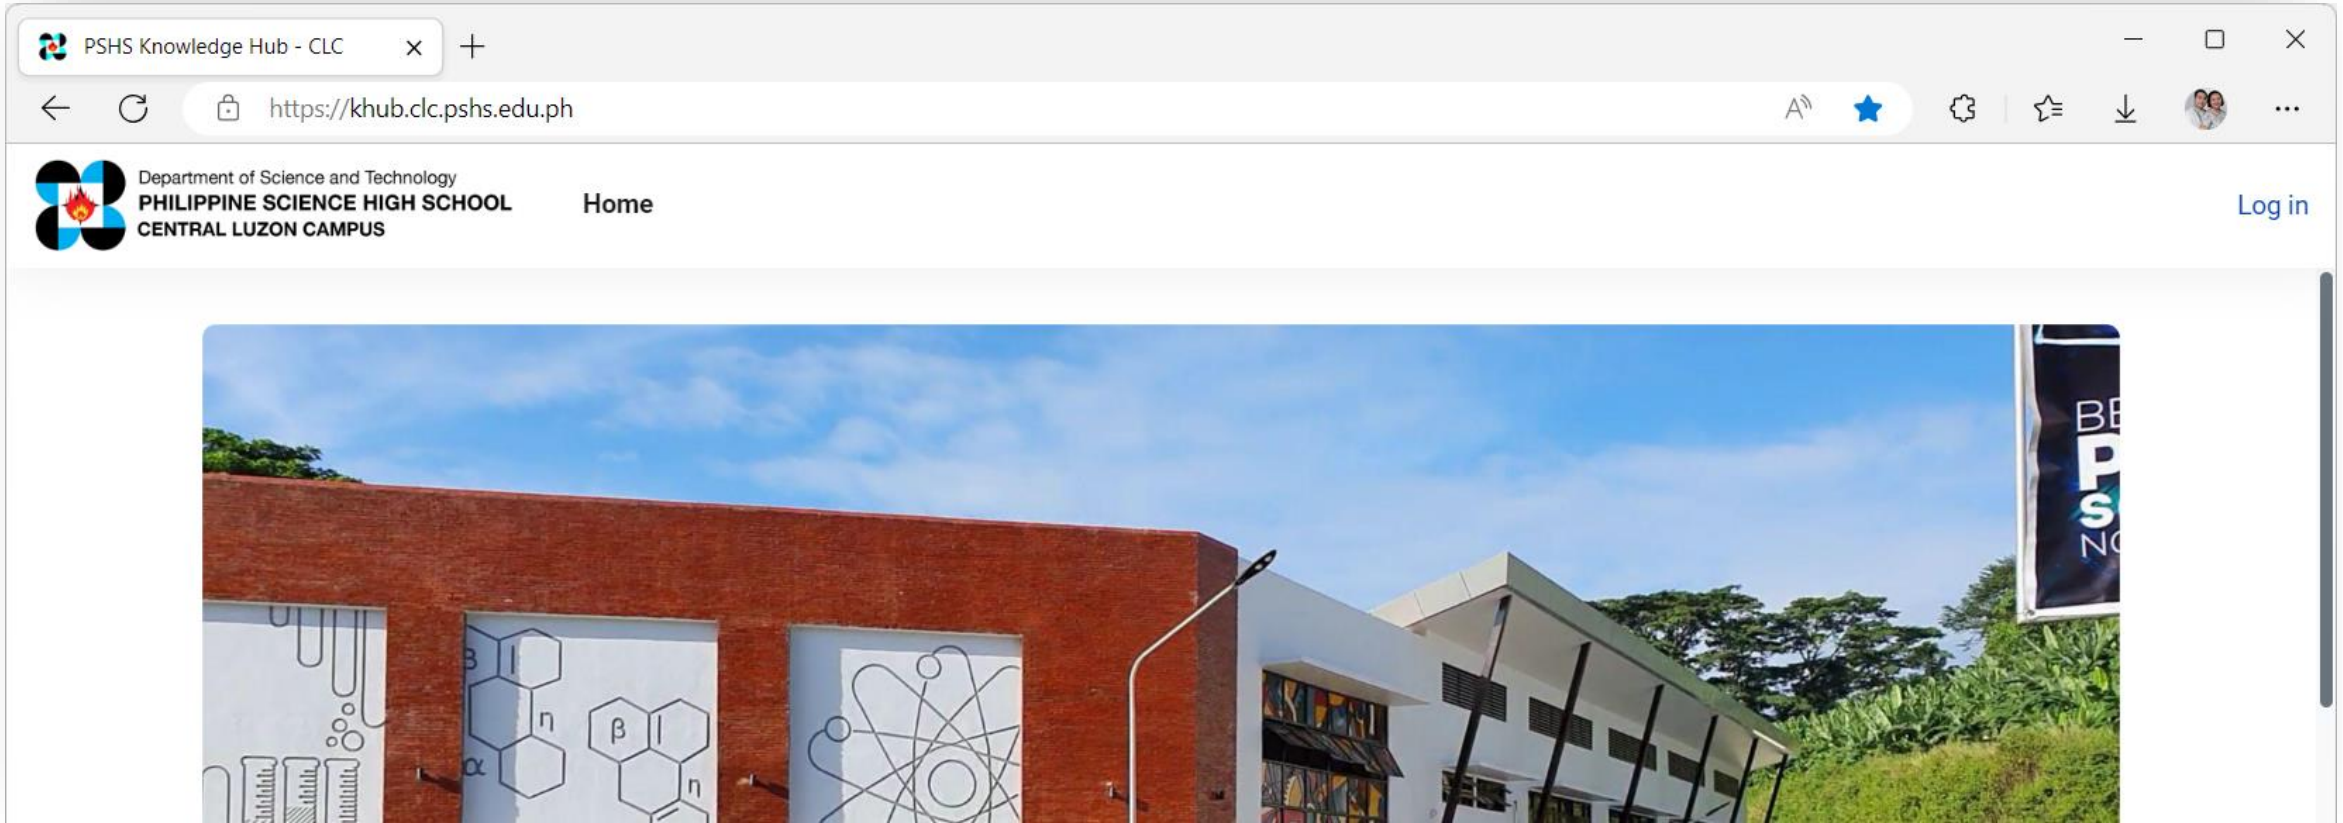




HELP!

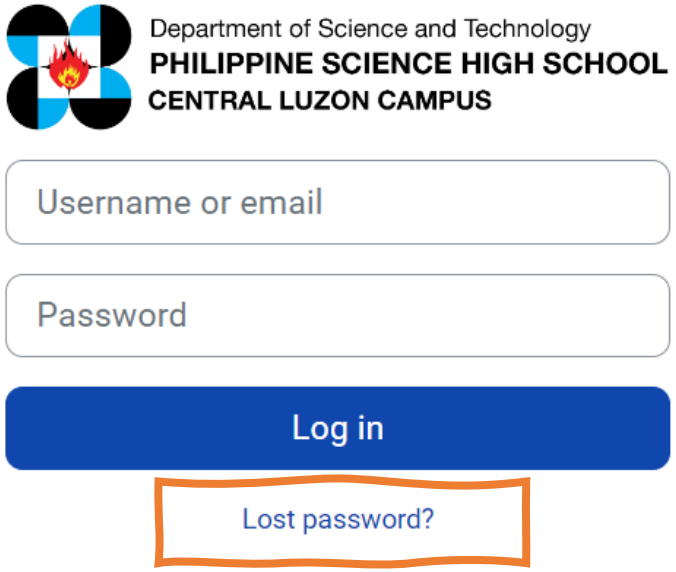
I forgot my PSHS email / password :(

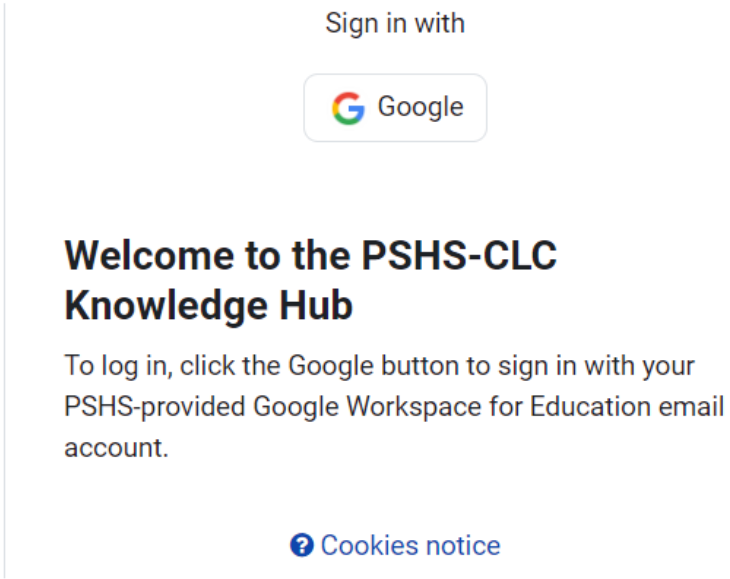
Contact your adviser through chat or ask a classmate to contact them. They'll ask the MIS Team to help you out.



HELP!

What about this?





Using that link won't help because your PSHS emails are managed by the school through Google. Only the MIS Team can reset your password.
